Community Emergency Response Team

Goleta residents are training to be better prepared to respond to emergency situations in our community through the City's Community Emergency Response Team (CERT). CERT members can provide critical support to first responders, provide immediate assistance to victims and organize spontaneous volunteers at a disaster site. CERT members can also help with non-emergency projects that help improve the safety of the community.

Over the summer, CERT trainings included components on Disaster Preparedness, Team Organization and Disaster Psychology, Medical Operations, Damage Assessment, Disaster

To learn more, visit www.goletapreparenow.org or contact City Hall at 961.7500.

PHOTO BY JIMMY CALLIAN

Simulation, Fire Suppression and Light Search and Rescue. Our first class filled up immediately but additional courses will be offered in early 2011. The CERT program is part of Goleta Prepare Now!, a program to educate and prepare our community for disaster.

Slow Down: School is Back in Session

School is back in session, so drivers must be extremely careful. Students walking and biking to and from school, parents picking up and dropping off, and school buses loading and unloading create the need for caution.

The weekday hours of 7:30-8:30 a.m. and 2:15-3:30 p.m. see the greatest increase in foot/bike traffic from elementary through high school students.

Goleta was the first city in California to implement a speed limit reduction from 25 to 15 miles per hour within 500 feet of schools. This applies to schools on two-

lane roads with maximum posted speeds of 30 mph, which means all schools in Goleta except for Ellwood School, El Rancho School and Montessori School.

Additional improvements have been made in Goleta to help keep our neighborhoods safe. Sidewalks have been completed near Ellwood School and a traffic signal is planned for Fairview Avenue at Berkeley.

Keep our streets safe by following the rules of the road and exercising caution, particularly in our school zones.

Tsunami-Ready: What You Need to Know

While Goleta has not seen a tsunami off its coast in the past, it's important to know how to prepare, particularly for those who live and work in a tsunami hazard zone.

PREPARE NOW

How you prepare will affect how you recover. Being prepared for earthquakes and tsunamis readies you for all types of disasters.

You need to know if you live, work or play in a tsunami hazard zone. A very small portion of the City is in a hazard zone. (Visit www.cityofgoleta.org and search for "tsunami map" to see the map of our area.)

- If you live or work in a tsunami hazard zone, get a NOAA weather radio with the public alert feature for your home or office. It will alert you even if turned off.
- Assemble a small evacuation kit (*see Shop for Your Kit*).
- Walk your escape route—consider what you would do at night or in stormy weather.

- Make a reunification plan with your loved ones.
- Discuss plans with family, coworkers and neighbors.
- Make plans for how to address any functional needs or disabilities you might have.
- Decide on the best strategy for protecting your pets.
- Prepare to be on your own for several days or longer.
- Consider joining your Community Emergency Response Team (CERT). (*See CERT article on front cover*)

Be safe and be prepared. For more information on How to Survive a Tsunami, visit www.calema.ca.gov.

SEPTEMBER IS NATIONAL PREPAREDNESS MONTH: SHOP FOR YOUR KIT

The Goleta **Partnership for Preparedness (GP4P)** will have volunteers and displays set up at a number of local grocery, drug and hardware stores to promote disaster preparedness. The Goleta Prepare Now "Shop for Your Kit" campaign encourages shoppers to purchase emergency kit supplies as

they do their regular shopping. Our volunteers will also be able to help put together a kit at the stores sponsoring this program. Displays will feature emergency preparedness information, materials and emergency backpacks for sale. Volunteers will hand out reusable grocery store bags with preprinted information on what should be included in a basic emergency kit.

When disaster strikes, it's too late to become prepared. Don't miss this opportunity to prepare your family and your household. Put together your kit this September during National Preparedness Month!

Elections Information

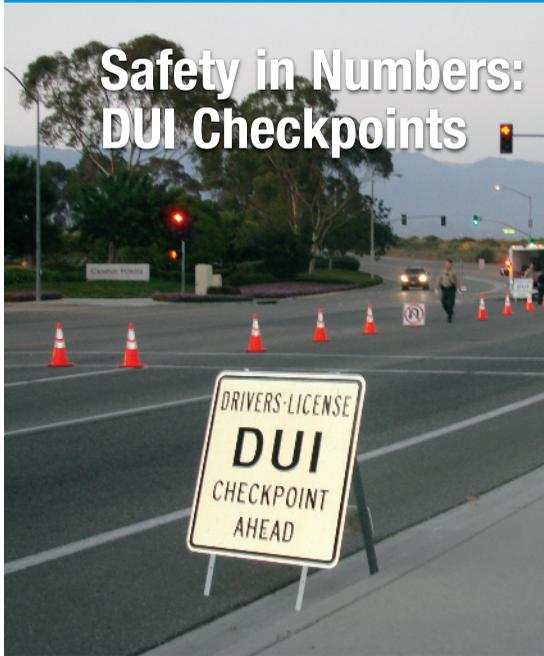

Residents in the City of Goleta will vote for three City Council Members in the November 2nd General Election. City Council members are elected at-large for a four-year term. Council members serve "staggered" terms, meaning that either two or three seats are open for election every two years. The seats held by Mayor Eric Onnen and Council Members Roger Aceves and Michael T. Bennett are up for election this year.

Register to Vote

Voter registration forms are available at all public libraries, the Goleta Valley Community Center and City Hall. To receive a registration form by mail, please call the Santa Barbara County Registrar of Voters office at 568.2200 or the City Clerk's Office at 961.7500.

The Monarch Press is produced by the City Manager's office. The newsletter is printed on (50%) recycled paper stock (15% post-consumer waste), using soy-based ink and distributed to all City of Goleta residents and businesses as bulk rate U.S. Mail. Additional copies are available at City Hall, the Goleta Library, the Goleta Valley Chamber of Commerce and the Goleta Valley Community Center. *The Monarch Press* can also be downloaded from the City's website. Please direct questions and comments to: themonarchpress@cityofgoleta.org.

Safety in Numbers: DUI Checkpoints

THE GOLETA POLICE DEPARTMENT conducted two sobriety checkpoints in June 2010 in a continuing effort to improve traffic safety. Sobriety or DUI (driving while intoxicated) checkpoints involve a stop by a police officer who then verifies that you are following the laws for driving a vehicle.

During these recent checkpoints over fifteen hundred drivers were screened. Three were arrested for alcohol related violations. Two were arrested for driving under the influence of alcohol. The other driver was arrested for being under the legal drinking age of twenty one and driving with alcohol in his system. Twenty-seven vehicles were towed and another ten criminal citations were issued.

Sobriety checkpoints are designed to prevent drivers from driving under the influence of alcohol. We encourage an alternative plan for transportation such as designating a non-drinking driver or calling a taxi when you plan to partake. While drinking alcohol and then driving is not illegal, driving while impaired is against the law and the penalties are steep. It's also important to note that certain combinations of prescription drugs may also impact your ability to drive in a safe manner. Impairment means different things for different bodies and we encourage you to take precautions for the safety of all.

Checkpoints will continue to be conducted with an additional grant the Santa Barbara County Sheriff's Department received which provides public safety services to the City.

Be safe and smart. Don't drink and drive.

The Butterflies Are Coming

Every winter thousands of Monarch butterflies travel up to 3,000 miles to their winter home in the Ellwood Mesa Open Space. Visit the Ellwood Main Monarch Over-wintering Site to enjoy one of Goleta's treasures. Park at the City of Goleta parking lot in the 5000 block of Hollister Avenue across from Ellwood School. Follow the trails into the eucalyptus trees south of Coronado Drive in the Butterfly Preserve.

The City's Monarch Butterfly Docent Program trains volunteers to provide information to the public on weekends during peak butterfly viewing periods—November through February. Visit the Coronado Preserve to meet the docents who can answer your questions and are also available to make presentations.

For more information, contact City Hall at 961.7500 or visit www.cityofgoleta.org.

Volunteers pulled weeds at Ellwood Mesa. They made progress in eliminating the the *Plantago lanceolata* weed population due to the sharp botanical eyes and hard work of the volunteer crew which included students, residents, representatives from local businesses, City staff and elected officials.

Safe and Sound at the Bluffs and Beach

One of the great perks about living in the Goleta Valley is the natural beauty of the beaches and surrounding areas that residents have to enjoy. When taking an evening walk on the bluffs or playing on the beach, don't forget these important tips from Community Resource Deputy, Garrett TeSlaa:

1. Bonfires **are illegal** on all of the beaches and bluffs surrounding the Goleta Valley.
2. Dogs must be kept on leashes unless otherwise posted.
3. Responsible consumption of alcohol is permitted on our beaches for those 21 years or older.
4. If you're going to consume alcohol, be sure to carry identification with you. Minors with alcohol will be cited.
5. Be considerate of other users and have a way to pack your trash out.
6. No motorized vehicles of any kind are allowed on bluffs and beaches.
7. If you're under 18, you need to wear a helmet while bicycling on the bluffs or beaches.
8. Beaches in the city of Santa Barbara have different rules, so check with the Santa Barbara Police Department before venturing out.

Remember to follow these tips to keep our community safe for our residents so everyone can enjoy these wonderful resources.

Call City of Goleta at 961.7500 or visit our website at www.cityofgoleta.org

Eating Locally

Goleta residents are fortunate to have easy access to healthy food. With the weekly farmers markets and Fairview Gardens, it is easy to buy and eat locally.

FARMERS MARKETS

Farmers Markets are held in Goleta on Sundays and Thursdays at Camino Real Marketplace, 7004 Marketplace Drive (corner of Storke and Hollister). A wide variety of fruits, vegetables, flowers and other local goodies are available on Thursdays from 3-6:30 p.m. and Sundays from 10 a.m. – 2 p.m.

For more information, visit www.sbfarmers-market.org.

BACKYARD BOUNTY

FRESH FROM THE FARM

Organic fruits and vegetables are also available year-round at Fairview Gardens on North Fairview Road next to the Goleta Library. This unique 22-acre farm is an internationally-respected model for small-scale urban food production. Seasonal fresh produce is grown on-site and is available to the public seven days a week. Fairview Gardens is an example of community supported agriculture (CSA) which means you can buy local, organic and seasonal produce directly from your farmer. In addition to the produce stand, members can pay for each season upfront and can pick up their share of the week's bounty at the farm or have it delivered to workplaces within the Santa Barbara and Goleta area.

For more information on how to participate, contact Melissa@fairviewgardens.org, call 967.7369 or visit www.fairviewgardens.org.

FAIRVIEW GARDENS

BACKYARD BOUNTY

With our warm climate, many residents grow their own produce in backyard gardens. The Foodbank of Santa Barbara County is always looking for those who have an excess to share their bounty with the less fortunate. Foodbank has a "Backyard Bounty" program—you can donate your own produce or enroll in the program to have trained volunteers harvest for you. All fruits and vegetables are acceptable donations and tax-deductible. Foodbank can also provide information on proper training and pruning techniques to maintain healthy fruit trees.

To get involved, contact [Jim Roehrig](mailto:Jim.Roehrig@foodbank.org), Backyard Bounty Coordinator at jroeh57004@aol.com or 896.4724.

It IS Easy Being Green

"Going Green" is happening all over Goleta including in our local businesses. Santa Barbara Airbus, MoveGreen, and Kitson Landscape Management are among the first few businesses to earn the green-certified business designation from the Green Business Program (GBP) of Santa Barbara County. Eight other Goleta businesses are in the process of being certified.

This program aims to recognize, through certification, local businesses going beyond required measures to serve as models of sustainable business. Today, "Green Business" means more than recycling. The goals are: to promote environmental ethics in Santa Barbara County; to establish a positive relation-

ship among governmental agencies, the business community and the public; to help businesses integrate environmental responsibility into their operations in a manner that is sustainable as well as profitable; and to provide public recognition to exemplary businesses.

A certificate from the GBP of Santa Barbara County represents a commitment to go above and beyond basic environmental requirements.

For more information on how your business can become certified, contact [Green Business Program of Santa Barbara County](http://www.greenbizsbc.org), visit www.greenbizsbc.org or email coordinator@greenbizsbc.org.

Good Things Are Happening in Old Town Goleta

HOLLISTER MAKEOVER

The results of this study will provide valuable information for the Hollister Corridor Redesign. Hollister Corridor is the area from Fairview Avenue to Kellogg Avenue in Old Town Goleta. The redesign will take into consideration the number of vehicle travel lanes, a center turn lane, median landscaping, sidewalk design and walkability, street trees and other amenities, accommodation of bike lanes, traffic calming measures and parking.

A SPACE TO STAY

A hotel conference room study is also being conducted to learn more about the facilities that currently exist, the needs and the possibility of adding a conference center. Results of this study will provide valuable information to the Council as they consider future needs.

Check our website at www.cityofgoleta.org for more information on the progress of these and other projects within Old Town.

The Redevelopment Agency (RDA), charged with addressing areas of blight and creating new affordable housing, has several major projects currently in-process around the area.

A GOOD DAY TO PLAY

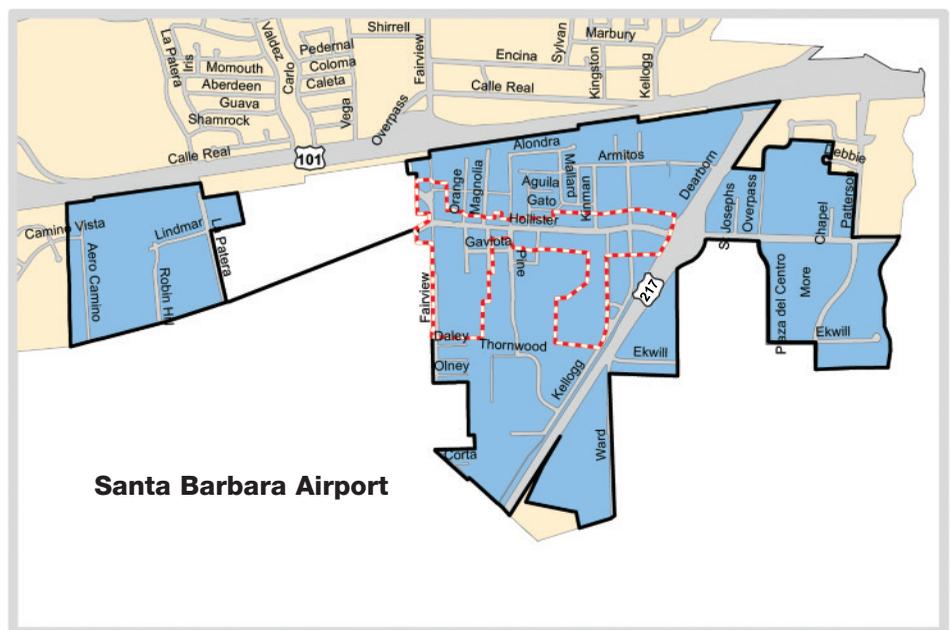

Nectarine Park will receive additional enhancements this fall with new landscaping, benches and fencing. A tricycle path and other concrete work will also be installed through RDA funding and federal Community Development Block Grants.

FLOOD CONTROL

The City Council approved a final design contract for the San Jose Creek Capacity Improvement Project moving it one step closer to groundbreaking. Work is expected to begin in the Spring 2011. The San Jose Creek Project, which has been many years in the making, will ultimately provide a larger capacity channel for storm water runoff to flow to the ocean, thereby reducing the flood threat to Old Town. Residents and businesses will be able to feel more confident that their properties are protected from flooding.

PARKING PLANNING

A parking study of Old Town is being done with the overall goal of improving parking for businesses on or near Hollister Avenue. Community input was, and continues to be, very important in this process. Public opinion was gathered through public meetings and an online survey.

Land Trust Helps Fish Project Jump Forward

The Goleta Valley Land Trust (GVLT) has awarded the City of Goleta \$100,000 towards the construction of the Fish Passage portion of the San Jose Creek Improvement Project. This project helps the environment by providing a way for endangered steelhead trout to move upstream to spawning areas.

This grant will help the City move forward with the Fish Passage portion of the Project. The City will continue to seek out grants from other state and federal sources.

“We are very fortunate that the Land Trust decided to grant us these funds,” said Rosemarie Gaglione, Manager of Capital Improvement Projects for the City of Goleta. “This is an interesting project because it provides the opportunity for restoration and education and will create a point of interest along the creek.”

The San Jose Creek Project, which has been many years in the making, will ultimately provide a larger capacity channel for storm water runoff to flow to the ocean thereby reducing the flood threat to Old Town Goleta.

Steve Wagner, Director of Community Services, added, “We are very pleased that the San Jose Creek project is moving forward. This will be a huge improvement for Old Town Goleta and one of the critical first steps toward its revitalization.”

Work on the project is expected to begin in 2011.

Don't Dump: Protect Our Storm Water

Did you know that Goleta's storm water system consists of ditches, swales, pipes, curbs, catch basins and other drainage features that are designed to collect or convey storm water? Did you know that most of this storm water then runs off into our creeks and ocean?

If you observe something other than storm water being poured or allowed to flow into Goleta's storm water system, this may be an “illicit discharge.” Rinsing paint brushes out on your driveway and/or putting trash into

drains are examples of an “illicit discharge.” These can be a source of water pollution, harming aquatic life, causing unpleasant odors and creating public health concerns. Goleta is committed to identifying and eliminating these discharges. Goleta is committed to identifying and eliminating these discharges but we need your help!

Please report anything that seems suspicious by calling the Storm Water Hot Line at 961.7570.

Goleta Submits Storm Water Report to Water Board

The City recently completed the first year of its Storm Water Management Plan and submitted the required Annual Report to the Central Coast Regional Water Quality Control Board. The report documented the actions and activities accomplished over the last year to implement the plan. Some of the more notable accomplishments include: the formation of the City's Storm Water Community Interest Group; strengthening the City's Storm Water Discharge Ordinance; establishing a new Storm Water Hotline (961.7570); basic storm water training

for all City staff; several creek cleanup events; and continuing efforts to identify and eliminate non-storm water discharges to our local waterways.

During the coming year, the City's storm water effort will focus on meeting specialized staff training needs, outreach to the business community, enhanced data tracking and documentation.

The Annual Report was put out for public review and comment on July 9.

To view the report, visit the City's website at www.cityofgoleta.org. Search “storm water annual report.”

Creek Week: Help Keep Goleta Creeks and Beaches Clean

SEPTEMBER 25 – OCTOBER 1

The annual Coastal Cleanup Day and Creek Week events celebrate our local waterways and provide an opportunity for community members to participate in protecting and enhancing water quality in our creeks and ocean. Come spend a morning making a difference by participating in the following events:

Sept 25 – Ellwood Beach Cleanup

9:00 a.m. - noon

Meet at the chimney on Ellwood Mesa straight out from Ellwood Beach Drive

October 1 – Creek Cleanup

9:00 am – noon

Call number below for location

A complete description of Creek Week activities is available online. Keep Goleta's creeks clean and safe.

For more information on how to get involved, call Everett King at 961.7565 or visit www.sbcreekweek.com

Comiendo Localmente

Los residentes de Goleta son afortunados en tener un fácil acceso a comida saludable. En los **Mercados Sobre Ruedas** y “Fairview Gardens”, es fácil comprar y comer localmente. Los Mercados Sobre Ruedas en Goleta son los domingos de 10 a.m. – 2 p.m. y los jueves de 3 a 6:30 p.m. en “Camino Real Marketplace”, 7004 Marketplace Drive (Storke y Hollister). www.sbfarmersmarket.org.

“Fairview Gardens” en North Fairview Road, junto a la Biblioteca de Goleta tiene frutas y verduras orgánicas todo el año. La verdura de la estación se cultiva en la ciudad y está disponible al público los siete días de la semana. Se puede comprar en el puesto o, si son miembros de la granja, cada temporada pueden pagar de antemano y recoger su parte de la producción semanal en la granja o pedir que se les entregue en sus trabajos dentro del área de Santa Bárbara y Goleta. Llame al 805-967-7369 o visite www.fairviewgardens.org

El “Foodbank” de Santa Bárbara les pide a quienes les sobren verduras que las compartan con aquellos menos afortunados. El programa “Cosecha del Jardín” ofrece voluntarios entrenados levanten la cosecha por usted. Llame a Jim Roehrig, Coordinador del Programa al 805-896-4724 o escríbale a jroeh57004@aol.com

Seguro de Automóvil para Personas de Bajos Ingresos

Como usted sabe, la ley de California dice que las personas que manejan deben tener un seguro. El Seguro de Bajo Costo para Automóviles (CLCA por sus siglas en inglés) ayuda a miles de personas al proporcionarles una opción para que puedan asegurar sus automóviles con menos de \$400.

Si usted maneja sin tener seguro podría:

- Perder la tenencia de su vehículo
- Arriesgarse a que le suspendan su licencia
- Arriesgarse a que le quiten su automóvil
- Ser multado

Podría calificar para el programa si usted:

- Cuenta con un buen récord de manejo
- Tiene por lo menos 19 años
- Ha tenido licencia para manejar los últimos tres años
- Es dueño de un vehículo valuado en \$20,000 o menos
- Cumple con los requisitos de elegibilidad

Llame hoy al 1-866-602-8861 para saber si califica, o visite www.insurance.ca.gov/lowcost

Cosas Buenas Suceden en el Viejo Goleta

La Agencia de Renovación (RDA por sus siglas en inglés) trabaja en los siguientes proyectos en el Viejo Goleta:

El Parque Nectarine recibirá mejoras adicionales este otoño con nuevos jardines, bancas y bardas. Se instalará también un camino para triciclos y se harán otras obras de concreto.

Se está llevando a cabo un estudio con el propósito de mejorar el estacionamiento para los negocios ubicados en o cerca de Hollister Ave. La opinión de la comunidad es muy importante en este proceso y se obtuvo en juntas públicas y con encuestas por computadora.

Este estudio proporcionará información para renovar el Corredor de Hollister, el cual tomará en consideración el número de carriles para vehículos, las áreas verdes, diseño de aceras, carriles para bicicletas, medidas para calmar el tráfico y estacionamiento.

El Concilio aprobó un contrato para el diseño final del Proyecto de Mejoras a la Capacidad del Arroyo San José, el cual comenzará en el 2011. El proyecto es importante para el área porque, al terminarse, ayudará a evitar inundaciones en el Viejo Goleta.

La Agencia de Renovación y la Ciudad de Goleta se comprometen a estas importantes mejoras para el Viejo Goleta. Visite www.cityofgoleta.org para más información sobre el progreso de éstos y otros proyectos en el Viejo Goleta.

CALIFORNIA LEMON FESTIVAL IN GOLETA – OCTOBER 16 & 17

The 19th Annual California Lemon Festival in Goleta comes to Girsh Park on October 16th and 17th. You'll find wonderful food, a fantastic family atmosphere and variety of entertainment and activities. This weekend also includes the Goleta Fall Classic Car and Street Rod Show and the ever-popular 'Safety Street.' Don't miss pie-eating contests, arts and crafts vendors and the new Green Business trade show.

For more information, visit www.LemonFestival.com.

SANTA BARBARA INTERNATIONAL MARATHON – NOV. 6

Goleta will see runners jogging through Goleta during the early morning hours on Saturday, November 6th.

The course starts at Dos Pueblos High School and goes to Los Carneros, Hollister Avenue and Cathedral Oaks Road. Participants will wind through Santa Barbara ending up at Leadbetter Beach and Park. Some road closures will be in effect in Goleta between 6 and 10 a.m.

For specific course information and road closures, visit www.cityofgoleta.org or www.sbimathon.com. Information is also available at 961-7508.

Low Cost Auto Insurance

Many income eligible drivers remain uninsured because the costs of standard insurance premiums are beyond their financial means. The California Low Cost Automobile Insurance program (CLCA) has helped thousands of Californians by providing eligible drivers an affordable option to keep their vehicles insured for less than \$400 a year.

If you drive without insurance, you could:

- Have your vehicle registration suspended
- Have your license suspended
- Have your car impounded
- Be fined

You may qualify for California's Low Cost Automobile Insurance Program if you:

- Have a good driving record
- Are at least 19 years of age
- Have been continuously licensed to drive for three years
- Own a vehicle that is valued at \$20,000 or less
- Meet the income eligibility requirements

Call today to see if you are qualified.
1-866-602-8861 or go to www.insurance.ca.gov/lowcost

A Busy Summer for the Public Works Department

Sidewalk Safety First! The City has completed the leg of sidewalk along Hollister Avenue between Storke Road and Ellwood School. Our community now has a safe walking path to reach bus stops, businesses and the school.
